

IMALI BCI PASSIVE BALANCED FUND (A)

MINIMUM DISCLOSURE DOCUMENT | 31 OCTOBER 2024

INVESTMENT OBJECTIVE

The objective of the Imali BCI Passive Balanced Fund is to offer investors a moderate to high long term total return mainly through the use of passive investment strategies.

INVESTMENT POLICY

The fund will mainly invest in exchange traded funds and index related securities. However, an active component may be included where deemed fit by the investment manager. Asset allocation and investment allocation factors may include factors such as market, defensive, quality, value and momentum strategies, and will be used with the aim to deliver better risk adjusted long term total returns than the market for similar risk profiled portfolios. The investment manager will apply and or rotate the factors and indices which they deem most appropriate to cater for the varying market conditions and investment cycles. The portfolio provides investors access to capital growth over the long term and may exhibit levels of volatility and possibly capital loss over the short term. The portfolio will be managed in compliance with prudential investment guidelines for retirement funds in South Africa to the extent allowed for by the Act with a maximum net equity exposure of 75% of the portfolio's asset value.

- The portfolio is exposed to equity as well as default and interest rate risks.
- Therefore, it is suitable for medium to long-term investment horizons.
